

## FITODENT - HERBAL REMEDIES FOR PERIODONTAL REGENERATION

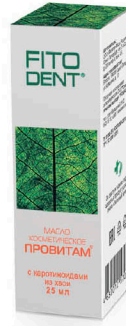

### Dental elixir with chlorophyll and aspen bark 25 ml

An effective prophylactic agent for the care of the oral mucosa. It has a healing, anti-inflammatory, tanning and excellent deodorizing effect. Helps to reduce bleeding gums and swelling of the soft tissues of the oral cavity. It is used in periodontics, implantology and surgical dentistry. Excellent breath freshening. Products passed clinical and toxicological testing.

### Chlorophyll Oil

Ingredients: peach oil, chlorophyll from kelp. Oil does not contain fragrances, dyes, preservatives. Oil softens, nourishes the skin and mucous membranes of the nasopharynx, eliminates peeling of the skin, relieves inflammation, irritation and diaper rash (including in children), promotes healing of microcracks, abrasions, has a healing and painful effect with sunburn.

### Carotenoid Oil

PROVITAM oil contains a complex of natural fat-soluble vitamins from the needles: E, D, K, provitamin A ( $\beta$ -carotene, lutein and other carotenoids) from the needles of pine and spruce has an attractive yellow color and delicate pine aroma with a fruity note. Oil is used in the treatment of acute and chronic inflammatory diseases of the throat and nose, oral mucosa. The oil has a soothing, healing and nourishing effect on the mucous membrane.

### Gum Gel - Gingival Gel

Chlorophyll gel helps prevent and treat gingivitis in surgical practice: as periodontal and peri-implant support procedures, as an aid in the treatment of alveolitis and dentures, as an adjunct to dental prophylaxis. Accelerates healing, contributes to the plastic and lytic process of the oral mucosa.

### Rinser with chlorophyll and aspen bark 250 ml

Chlorophyll promotes healing, has antioxidant, anti-inflammatory and deodorizing effects. Helps reduce the intensity and spread of inflammation in the gums; reduces bleeding gums and swelling of the soft tissues of the oral cavity. Conditioner does not require dilution. It is completely ready to eat! For ease of use, the bottle is equipped with a volume cap that holds the volume necessary for rinsing and can be used as a cup.

## HISTORY OF THE MANUFACTURER

St. Petersburg research and production company "Phytolon" was founded in 1990 and develops original technologies for obtaining biologically active concentrates from domestic plant raw materials (pine and spruce needles, edible brown algae, herbaceous plants) and creates therapeutic and preventive agents based on them.

The activities of the company "Fitolon-Med" is a logical continuation of the fundamental scientific research of the St. Petersburg State Forestry Academy. S.M. Kirova (FTA) on the study of biologically active substances of wood. The company's products are used to reduce the risk of cancer and cardiovascular diseases, improve blood formation, strengthen the immune system, reduce the risk of influenza and other acute respiratory viral infections, normalize metabolism, and improve the performance of the gastrointestinal tract.

Clinical trials of manufactured products were conducted in leading scientific and medical centers in St. Petersburg and other regions of Russia. According to the results of clinical testing, doctoral and master's theses were defended, recommendations of the Ministry of Health of the Russian Federation were received. Products manufactured by Fitolon were awarded the "Green Cross" sign of the National Organization of the International Green Cross in Russia "For contributions to improving people's health and producing products that are beneficial to human health"; awarded the medals of P. Ehrlich of the European Academy of Natural Sciences, gold medal named after I.I. Mechnikov RANS "For a practical contribution to the promotion of the health of Russians."

## IRRIGATORS AND ELECTRIC BRUSHES, NOZZLES

### AR-V-08 SONIC TOOTHBRUSH

Five modes: cleaning, whitening, polishing, care for the gums and for sensitive teeth. Battery: 800mah lithium-ion battery. Frequency: 30,000 pulsations for sound mode, and 5,000 gum care modes. Smart Timer: 3 min. automatic timer, with 30 seconds alert. Water resistant ipx7. Charging: base inductive charging. 2 interchangeable brushes, cable and charger included.

### AR-V-07 SONIC TOOTHBRUSH

Five modes: cleaning, whitening, polishing, care for the gums and for sensitive teeth. Battery: 800mah lithium-ion battery. Frequency: 30,000 pulsations for sound mode, and 5,000 gum care modes. Smart Timer: 3 min. automatic timer, with 30 seconds alert. Water resistant ipx7. Charging: base inductive charging. 2 interchangeable brushes, cable and charger included.

### AR-E-28 ELECTRIC TOOTHBRUSH

Productivity: 8,000 vibrations per minute. Battery: 2 AAA Ni-MH. Charging: base inductive charging, with LED indicator. Waterproof: Yes. The head of a brush is replaceable, 2 pieces in a set. Product size: 25.9 \* 225 mm. Product weight: 245g (with box). Certification: CE, OK ROHS.

### INNOVATIVE NOZZLE FOR GENTLE CLEANING

Innovative cleaning nozzle provides gentle cleaning - ideal for sensitive teeth and gums. Ultra soft bristles for more thorough and careful cleaning. The bristles located in the center are 25% softer. This ensures thorough and careful cleaning. After three months of use, the bristles wear out and the cleaning efficiency decreases. Change nozzles every 3 months.

### MECHANICAL IRRIGATOR AR-W-11

Portable device for individual use. It does not require power supply, that is, it can be operated in any conditions. The principle of operation of the device is based on the mechanical injection of fluid by a high-performance piston pump. Portable irrigator - a wireless mechanical device for cleaning food debris from the oral cavity with a high-pressure water jet, folding with a set of nozzles. It has a 50 ml reservoir for filling with water or rinsing solution.

### TRAVEL IRRIGATOR AR-W-06

Portable irrigator Achepower AR-W-06 is designed for effective cleansing of interdental plaque and gum massage. The irrigator is very compact and ideal for traveling - the device can be folded into its own water tank for storage or transportation. Designed for cleaning food debris from the oral cavity with a high pressure water jet, folding with a set of nozzles, USB charging and a case. It has a 210 ml reservoir for filling with rinsing solution.

### PORTABLE IRRIGATOR AR-W-15

Compact device with the most comfortable set of functions. It has a removable tank with a separate flap for filling with liquid located in the lower part of the body. The irrigator has rubberized push-action buttons (power button and mode switch button), since wet fingers do not slide off and you can clearly control the operation of the device. Three power modes: strong, weak and pulsating for an additional massage of the gums.

### STATIONARY IRRIGATOR AR-W-05

Multifunctional system of oral care: teeth, gums, dentures, crowns and braces. Irrigator with bathroom. Wired electric device for cleaning food debris from the oral cavity with a water jet under pressure, with a set of nozzles. It has a 550 ml reservoir for filling with water or rinsing solution; 10 power options with continuously adjustable: massage, soft jet, hard jet. Nozzles included: simple, spoon, monopuch, periodontal, trident.

## CHAIRS FOR THE DOCTOR AND ASSISTANT

### LIGHT MODEL

Combined seat, 2 position adjustments: lift and tilt. The color is only black. The back and armrests are not completed. Leather material. Price 250

### SUPER MODEL

Divided seat, 3 options for adjusting the position: lift and tilt backrest. Color - to choose. Complete with backrest and armrests. Material - leather, eco-leather. Price 350/400/450

### MEDIUM MODEL

Divided seat, 2 position adjustments: lift and tilt. The color is only black. The back and armrests are not completed. Material - extruded foam. The price is 350

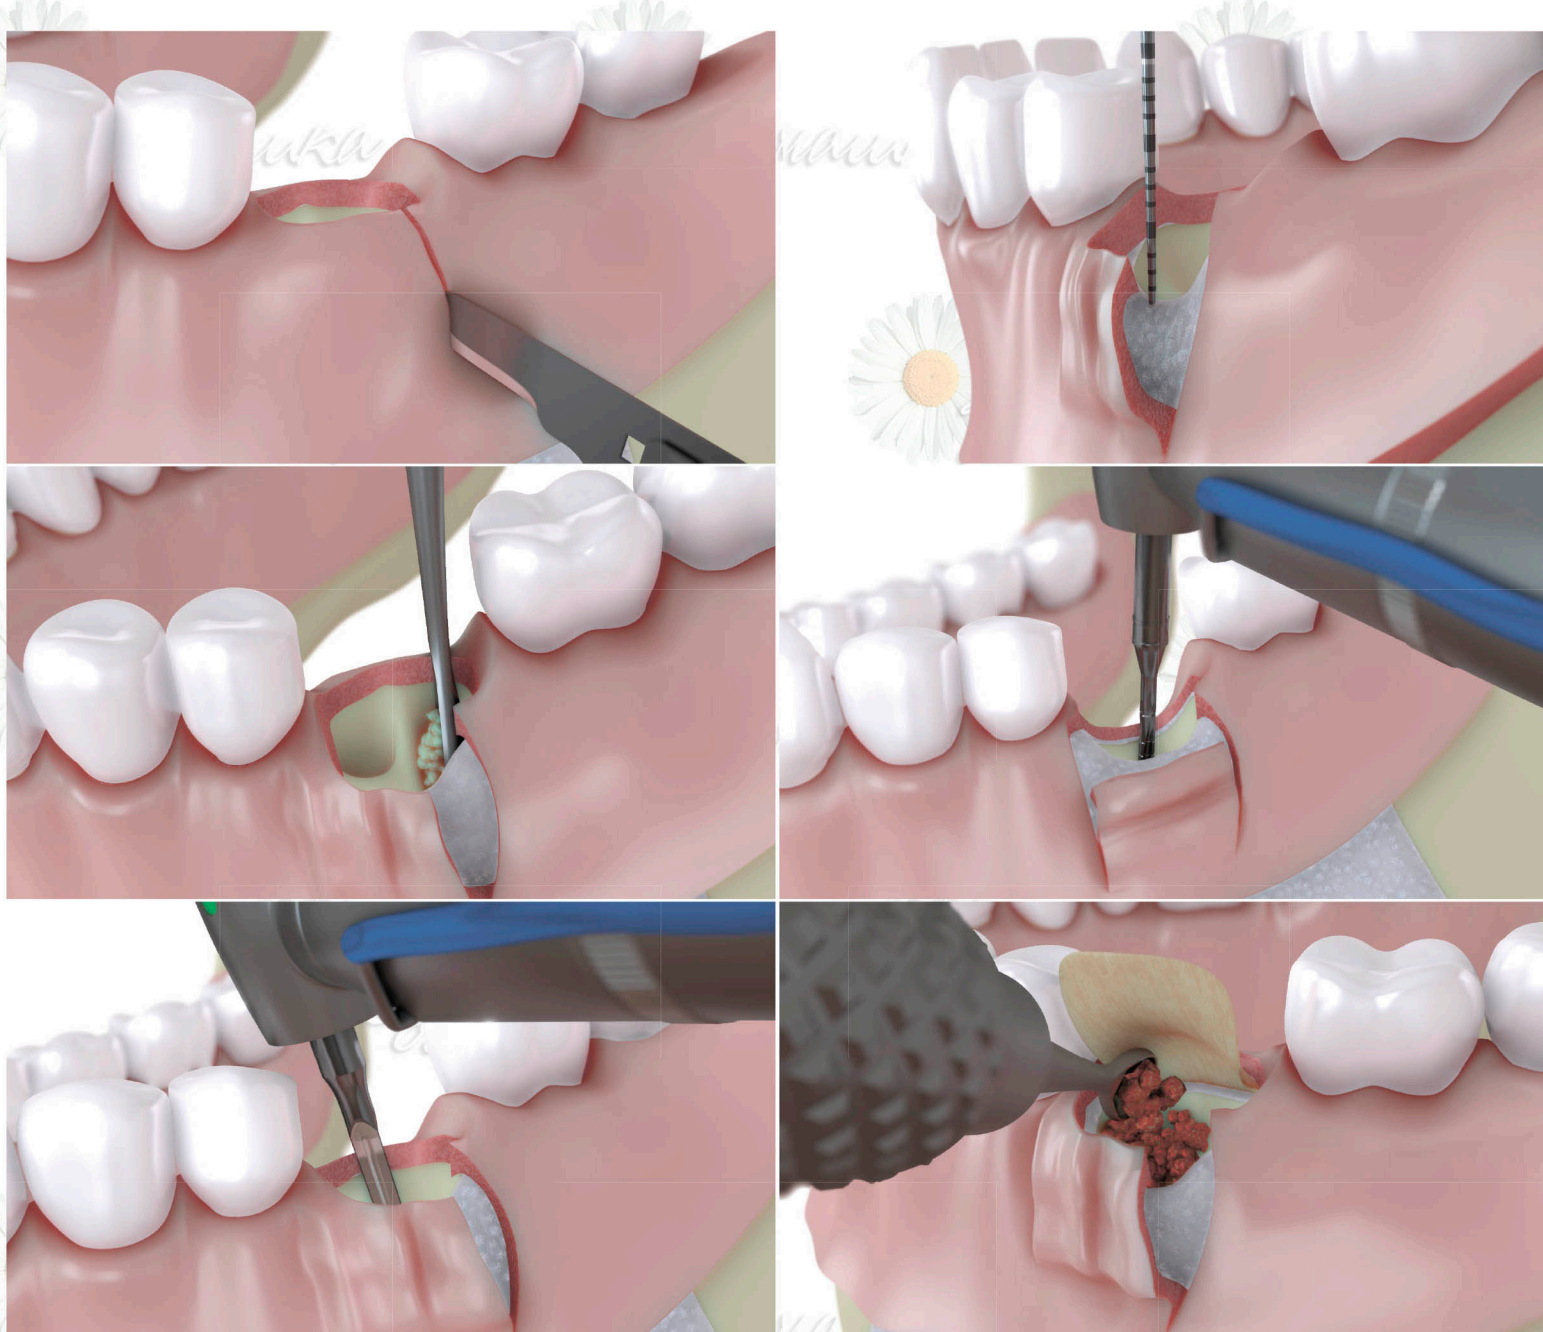

### SUPER MODEL

Divided seat, 3 options for adjusting the position: lift and tilt backrest. Color - to choose. Complete with backrest and armrests. Material - leather, eco-leather. Price 350/400/450

### COLOR SOLUTION

YOU CAN CHOOSE ANY OF 17 COLORS. PRODUCTION TIME 7 DAYS.
